BEAM *Platinum*

LCD Screen

The LCD interface provides system performance details, an empty bucket indicator, and a diagnostic feature should your unit ever require service.

Sound-Off Muffler

Significantly reduces motor noise able to vacuum without waking up the neighbourhood.

By-Pass Motor

With a powerful 7.2" by-pass motor, BEAM will not lose suction and continue to remove dirt, dust, pollen, and other debris from the home for many years to come.

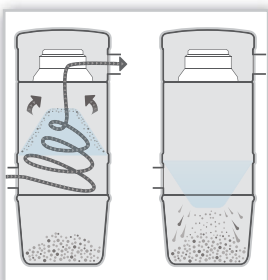

Utility Valve

Convenient utility valve lets you easily clean in the area around the vacuum unit without having to connect to an inlet valve in the wall.

Translucent Bucket

The extra large translucent bucket helps you to monitor the dirt level without having to disconnect the bucket. The twist lock contains the dirt within the bucket and allows for easy disposal of the contents.

Self Cleaning Filter

The exclusive BEAM Self Cleaning Filter with GORE-TEX™ technology filters 98% of particles at 0.3 microns, without the need of ever having to buy separate filter bags. The BEAM Self Cleaning Filter protects the motor for prolonged product life, keeping superior suction performance over time.
